

# Hollenstein Career and Technology Center

## 21st Century Learning!

The HCTC serves as an extension of all four EMS ISD high schools. Juniors and seniors enrolled in HCTC courses spend part of their day at the center and the other at their home campus. This allows students to participate in extra-curricular activities including athletics and fine arts as well as advanced placement and dual-credit courses. Busses provide transportation to and from the HCTC and the student's home campus.

The HCTC allows students the opportunity to gain knowledge and skills leading to post-secondary education and/or a career in high demand occupational fields. Students become college and career ready through the attainment of industry recognized certifications, college credit, and real-world hands on experiences.

**Mission:** To foster a culture of excellence that instills in every student a passion for continuous achievement in academics, career and technical studies, post-secondary education, and career.

**Awards & Accomplishments:** 2016 Recipient of The American Institute of Architects' Merit Award for outstanding architectural design
